Organisers

Why DEDS?

Data drives the world.

The DEDS programme will be a worldwide reference in advancing research and education in data management innovation for solving the critical challenges facing the society now and in the future.

Topics

Research Projects	Topic	Institution				Discipline	Work Package	Functional Modules
		ULB	UPC	AAU	ARC			
ESR1.2	Traceability in big data processing					Health	WP1 Governance	Functional Modules
ESR2.1	Transparent in-situ data processing					Transport	WP2 Storage and Processing	
ESR2.5	End-to-end optimisation for data science in the wild					Energy	WP3 Preparation	
ESR2.6	Physical optimisation for large scale, DS workloads					Transport		
ESR3.2	Synopses-driven data integration & federated learning					Finance	WP4 Analysis	
ESR4.2	Scalable model selection in stream settings					Finance		

ESR - Early-Stage Researcher Main supervisor from the Home institution Use case disciplines
 WP - Work Package Co-supervisor from the Host Institution
